Positioning

Most maneuverable, easy to use, sweeper with excellent sweeping performance and run time.

For maintenance professionals after a swept level of cleanliness the Terra 28B is the most maneuverable, easy to use high productivity sweeper on the walk behind sweeper market

Demo Tips

Always customize presentation and demo to what is important to the customer!

Pick up large debris like pop can, but practice first

Bring debris along to demonstrate cleaning ability if debris not available at customer - KNOW THE OUTCOME THOUGH!

Let them know that if you pull motion handle hard it will take off quickly. Use lightly like a clutch

Easier to turn around corners if the traction is not active

Don't back up - it will only show debris that was not captured
