

# Nilfisk University Mobile Trainer App

## Product training at your fingertips!

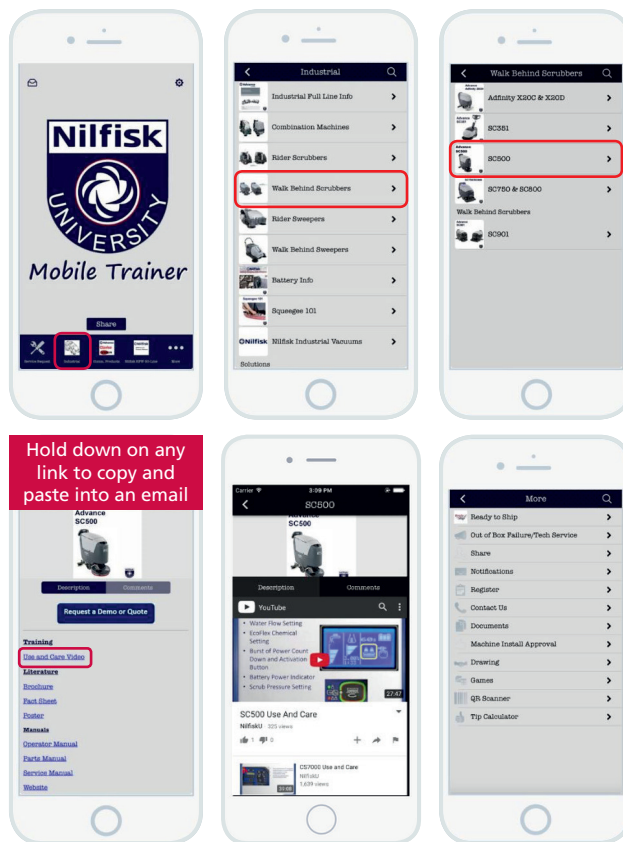

The Nilfisk University Mobile Trainer complements our training Website (NilfiskU.com) and our factory-based training in Brooklyn Park, MN. This handy app gives students timely access to product information, video training, events, and much more. Students can provide feedback with pictures and notes of what they've learned in the field to share with others. Other features include access to literature and the ability to enter drawings. Our latest addition to the mobile app allows you to request a demo or quote and submit service request tickets.

Students who wish to participate at NilfiskU.com can also register via the mobile app. At NilfiskU.com, you can take short exams to earn product "certification". You will also earn reward points that you can exchange for clothing and novelty items in the University Store.

### Works with any type of device

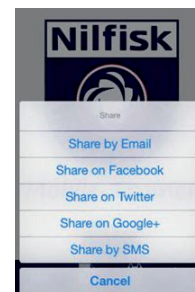

- Receive important messages from Nilfisk University
- Request a demo or quote option
- Access training, literature and more
- Enter drawings to win merchandise
- Submit service request ticket
- Keep up with the latest events and much more by clicking the More button

### The NilfiskU Mobile App Copy & Paste Option:
